- ASHRAE Annual Meeting, Houston, TX

Recent Project Engagements

Schedule Delay

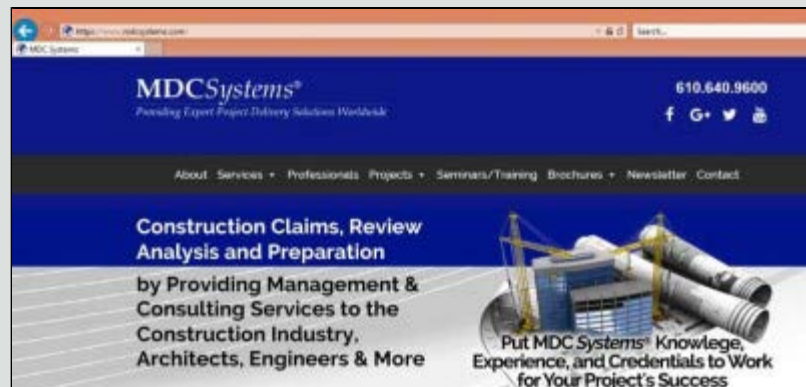

MDC[®] is currently assisting an experienced industrial contractor in addressing schedule delay issues associated with the execution of a large scale, multi-step contract for the Department of Defense.

Equipment Performance & Suitability Evaluation

MDC[®] is currently evaluating the performance and suitability of equipment used on a major utility infrastructure project that has been experiencing premature component failures.

It's Here! MDCSystems[®] Launches New Website

MDCSystems[®] is proud to launch our newly redesigned website, <http://www.mdcsystems.com/>. Improvements include streamlined menus, simplified navigation, and a more responsive layout for all platforms including mobile.

Please feel free to visit and explore the site and discover the new and improved website personally. MDC[®] will continue to expand our resources and deliver the most updated and relevant information. To receive our quarterly newsletter, sign up on the home page. To stay connected on social media, follow us on Twitter, LinkedIn, Facebook and YouTube.

Integrated Building Design...and Integrated Project Delivery

Mitchell Swann, PE, conducted a series of ASHRAE "Integrated Building Design" training programs for the US Naval Facilities Engineering Command. The first training program was in Honolulu in April and two additional programs took place in early June in San Diego, CA, and Silverdale (Seattle), WA.

ASHRAE Annual Meeting in Houston, June 23-25

Mitchell Swann, PE, also participated in the College of Fellows Debate at the ASHRAE Annual Meeting in Houston, TX.

The debate was on Monday, June 25th and the question of the day was "Are Cities Sustainable?" It featured a global vantage point with participants from major cities from India, the United Kingdom and the United States.
